Communication is a key to success at school and for Speech Pathology Week (August 7 – 13, 2016) we are highlighting the importance of communication in creating futures for our children. If we think about the classroom it is a buzz of words, explanations, questions, reading and writing. The ability to use language for thinking and learning is important for school success and creating students futures. Children learn to speak by talking with other people. The more children practice talking, the more they will learn. As parents you begin the teaching language from the very first day often with ‘mum mum mum’ or ‘dad dad dad’. It is important to continue modelling and teaching language by talking with your child. Conversations are an easy way to boost your child’s language and learning.
